Transformer	Expansion tanks
Low water cutoff	Zone control valve
Backflow preventer	Pressure reducing valve
Water feeder	External Aquastat
Boiler relief valves	Flange gaskets
Air vents (hi-vent)	

TERMS AND CONDITIONS

- Valley Gas & Oil Company reserves the right to inspect and approve all heating equipment and systems to be covered. The agreement will only provide coverage for heating systems that are properly installed according to state and local codes. This agreement does not cover parts and labor associated with the upgrading of the heating equipment or system to meet new changes in the codes.
- Service calls after **5PM** weekdays, or on weekends and holidays, because of a complete mechanical failure resulting in **NO HEAT**, will be covered under this plan. All other calls deemed necessary by the customer during these hours will be billed at current labor rates.
- Valley Gas & Oil Company's service plan is available to all customers that purchase their entire year's oil from us with an automatic delivery account. This agreement will automatically terminate with out refund if the customer fails to maintain an automatic delivery account, if the customer terminates their account with Valley Gas & Oil

Company, or if anyone other than a Valley Gas & Oil Company employee renders service to the heating equipment. This agreement may also be terminated by the Company with out refund if the customer's payment's on their accounts become delinquent.

- This service contract is not transferable with the sale of a property and it may require a re-inspection with the new owner.
- Payment for this service contract is due with in thirty (30) days of the invoice date. If payment is not received with in thirty days, the service contract shall be terminated, with all service work performed re-billed at current rates for parts, taxes and labor.
- This agreement will remain in effect for one year from date of the invoice and will automatically renew at the Company's prevailing rates at the time of renewal on a year to year basis unless either party gives at least five days prior written notice of termination. A refund for a plan already renewed may be issued up to 30 days after the renewal date provided no service has been performed as part of that renewal. No refunds will be issued after 30 days past the issue date or renewal date.
- Valley Gas & Oil Company shall not be held responsible for parts, components and materials that are discontinued, obsolete and unavailable.
- This plan covers the central heating system warm air furnace or hot water boiler and the manufacturers components installed at the factory. Any external parts or components that are field installed are not covered by this contract. A separate hot water contract may be purchased to cover these parts on a hot water heating system.
- This plan only covers a single boiler or warm air furnace, up to the maximum firing rate of 200,000 BTU'S.
- Any time in excess of two hours for the initial tune-up on a boiler or furnace will be billed at labor rates in effect at that time.
- This agreement does not include, and the customer will be charged separately for service required as a result of the customer's failure to replace fuses, reset circuit breakers, set thermostats correctly, or turn on the emergency service switch.
- Valley Gas & Oil Company reserves the right to determine whether to replace or repair equipment that has failed. When equipment is replaced, it is the Company's intention to use a comparable model. Replacement parts are subject to any manufacturer's warranty and any warranties implied by law. The company makes no express warranties regarding replacement parts.
- This agreement does not cover A) parts or labor required as a result of abnormal conditions such as water damage, fire, flood, freezing, hurricane, ice damage, power interruptions and power voltage problems, or other acts of nature, insufficient fuel when an account is not on automatic delivery or payments for fuel are in arrears. B) General plumbing, piping or hot water coil, household wiring, commercial heating equipment, venting issues due to build up of snow or ice causing system performance issues. C) Environmental damage, arising out of any leakage from any oil lines, oil tanks or any other part of the oil system. The company shall not be responsible for any consequential damage or loss. In no event shall the Company's liability exceed refund of the service plan payments received by the Company in the previous 12 months.
